Here's what participants have said about their experience!

"This program is well done and I really appreciated being a part of it as a first-time mommy."

"I would recommend this program to any expecting mother!"

"The incentives offered by HMAA are great! You'd never expect to receive a 3-month diaper supply, which is beyond helpful."

"I truly appreciated the program. The regular phone check-ins and quick responses to my questions made me feel cared for and supported all the way."

Who is eligible

You may enroll if you are currently in weeks 1 to 20 of your pregnancy.

How our program helps expectant moms and their babies

HMAA provides education, intervention and guidance, along with great incentives to encourage program completion. With a goal of healthy delivery, our wellness and clinical team determines an appropriate care plan for each participant. This may include working closely with specialized case managers and healthcare providers to ensure the most appropriate level of care. Incentives are provided at various stages of the program and are contingent on requirements including active engagement with HMAA.

How to enroll

Expectant moms may submit an online request at hmaa.com/wellness or contact our Wellness Department at HMAAwellness@hmaa.com.

We will provide a response with next steps.
