

Precertification Program

HMAA requires precertification of hospital admissions and certain inpatient/outpatient services. Precertification requests are approved for medical necessity only. Approval is not a guarantee of benefits or payment and is contingent on standard eligibility verification. Please note that **failure to obtain precertification may result in a reduction of benefits or payment.**

To obtain precertification: Submit your request to the reviewer listed below along with supporting clinical documentation at least two (2) business days **prior** to the planned service, surgery and/or admission; or within forty-eight (48) hours of an emergent admission. Forms are available on our website at hmaa.com.

- **Hospitals:** Submit the admission face sheet.
- **All other providers:** Submit a completed Precertification Request Form.
